If you have any additional comments, please provide in box below.

---

A cell tower in this neighborhood will adversely impact the health of our children and ourselves. The benefit does not outweigh the array of health issues, including cancer, that we and our children will suffer if a tower is erected. We all pay our HOA dues and have enough money as a community. Additional revenue at the expense of our health should never be a driver, ever.

This should not encroach on anyone's personal property
